ONE IS DEAD, ANOTHER MAY DIE, RESULT OF AN AUTO CRASH

Robert T. Lincoln Is Found Dead At Summer Home

ONLY SON OF GREAT WAR PRESIDENT IS FOUND BY SERVANT

Death Is Discovered At Nine O'Clock This Morning

EXPIRES AT AGE OF 83

Had Served In Many Capacities During His Lifetime

(Associated Press)

MANCHESTER, Vt., July 26—

Robert T. Lincoln, only surviving son of President Abraham Lincoln was found dead in bed at his summer home here today. His death was discovered by servants who went to call on him.

Mr. Lincoln who had served as Secretary of War, Minister to Great Britain and for years as president of the Pullman Co., had been in feeble health of late. He would have been 83 years old August 1.

According to custom, servants went to call him at nine a.m., and it was then that his death was discovered. A physician said that he had probably died some hours before. He came to Helden, the summer place that he had made his home for a quarter of a century, during the middle of last May, since then he had come out only once daily for an automobile ride. He took his customary ride yesterday.

One of the two daughters, Mrs. Charles Isham of New York, was at her summer home here. Two of his three grandchildren, Mary Beckwith and James Beckwith, the children of his other daughter, Mrs. F. E. Johnson of Washington, came to Helden a few days ago. He is survived also by his widow and a third grandchild, Lincoln Isham of New York City.

VOLUNTEERS ARE CALLED TO TEACH

Adult School Grows With Rapidity Reports Show

Albany school officials today called for additional teachers to teach the night classes at Adult Opportunity school, enrollment having grown to such an extent as to make the teaching of all classes to great upon the present faculty.

Since the opening of the classes some weeks ago from 25 to 30 people have enrolled.

All students cannot be taught in the same group and additional faculty is necessary.

Miss Kate Frazier who has been teaching in the school issued the call for volunteers, stating that there is an opportunity for teachers to be of great service in this work. The night session, two to three times each week, are conducted from 6:30 to 8:30 o'clock.

Murder Charge Against Negro

(Associated Press)

GREENWOOD, Miss., July 26—An indictment charging murder was returned by a special session of the Le Flore county grand jury today against Sylvester Mackey, negro, in connection with the fatal wounding two weeks ago of Frank Smith a deputy sheriff. Attorneys were named by the court to represent the negro. He will be placed on trial this afternoon.

MILLIONS IN SPANISH GOLD AND JEWELS HUNTED IN OZARK HILLS

Over \$100,000 Spent By One Man Who Was Firm In Belief That The Treasure Had Been Hidden By Adventurers

By International News Service

FAYETTEVILLE, Ark.—A treasure hunt that has gone on in Franklin county, Arkansas, for more than 30 years for Spanish gold said to be worth millions, a golden Madonna and chests of precious jewels, goes on today with as much fervor and vigor as it did in its early days.

Perhaps it's a myth—the result of a legend born in the crazed mind of an old Mexican adventurer or the romantic nature of Latin people—but the story is plausible enough for Dr. L. G. Hill, Mulberry, Ark., to spend \$100,000, the savings of a lifetime, in financing a hunt for the treasure.

Generations have seen adventurers push their boats up Big Mulberry Creek only to return months later with disappointment evident with every gesture.

Two Spaniards have visited Mulberry during the past 40 years and claimed knowledge of the treasure. The first was Antonio, 80 year old Mexican, who claimed to be a representative of President Diaz, of Mexico.

It was Antonio whom Dr. Hill financed in the treasure hunt. The elderly Mexican ran lines from three marking points on a map in his possession and each led to a sandstone bluff.

When cave-in dirt was dug away, diggers came to a system of hieroglyphics and the old man was frenzied with joy. The old man

told Dr. Hill if he came to a small square opening and found a flint dagger and a stone key in this hole it was the place. Both were found.

Antonio studied the symbols on the face of the cliff for a few days, started excavation work, and died. The map he had been following couldn't be found.

The work came to a standstill a few months later when Dr. Hill died.

The legend had it nine Spaniards left the old country with the treasure, millions in gold and silver bullion, a golden calf and a quantity of precious jewels, at the time when Spain feared overwhelming defeat at the hands of Napoleon.

They landed in New Orleans, heard of gold mines in the North, abandoned their ships at the mouth of the Arkansas, transported their treasure up the river in small sailboats, the legend runs.

Here they enslaved Indian miners, buried the treasure and started back to Spain, in an effort to bring about national negotiations regarding the treasure. Natives and diseases killed many and only one of the nine Spanish galleons reached New Orleans, says the legend.

Whether or not there is a treasure in the Ozarks makes no difference to two of Dr. Hill's sons and a young miner who are organizing a mining company to excavate in efforts to locate the buried fortunes—and see for themselves.

SENATE PROBE OF RACE CONTINUES

Smith Repudiates Charges Race Cost \$2,000,000

(Associated Press)

CHICAGO July 26—Frank L. Smith testified today before the Senate campaign committee that his successful fight for the Illinois republican senatorial nomination cost approximately \$250,000 of which Samuel Insull, Chicago, traction magnate gave \$100,000.

Charges repeated to the Senate by Senator Caraway, democrat, Arkansas, were that Smith's campaign had cost \$2,000,000 and that more than \$1,000,000 had been spent on behalf of Senator William B. McKinley, the defeated candidate.

Smith who is chairman of the Illinois commerce commission told the committee that his information as to Insull's contribution was given to him by Allen F. Moore, of Monticello, Ill., chief campaign chairman. He recalled no other contributions except Moore's own and "\$600 or \$700 in small checks that came to me."

"Then do you want this committee to understand that Mr. Insull was the sole backer of your campaign," asked Reed.

"I am telling all that I know of the contribution," answered Smith. "Just what Moore told me of."

"Colonel Smith the first witness called in the investigation, reiterated that all the raising of funds was in Moore's hands and that 'I told him I wasn't going to worry about it.'"

"But you are not in anyway repudiating his acts?" asked Reed.

"No sir."

Smith said he received these reports in Cook county of the "elements of the Crowe-Barrett faction who believed in the United States staying out of the world court."

"Who were they?" Reed asked.

"William Hale Thompson, Robert E. Crowe (state's attorney) and Charles V. Barrett," Smith replied.

MAYFIELD WILL BE HEARD AT PICNIC

Senatorial Candidate Replaces Debate Scheduled

Judge J. J. Mayfield, candidate for the United States Senate and who is understood to have already built up a large following in Morgan county and North Alabama will deliver the principal address on the occasion of the annual barbecue to be held at the Cain place, near Somerville on next Wednesday. Judge Mayfield will speak in the morning, the hour to be made known later.

Judge Mayfield replaces the debate between Hon. A. G. Patterson and Hon. C. S. McDowell which was to have taken place at the barbecue. The two gubernatorial candidates are pushing other campaigns elsewhere and did not have time to enter the Morgan section just now.

Many events will feature the barbecue, it being probable that a ball game between the Albany-Decatur team and some other Morgan county entrant will be staged.

Many people are expected to go from these cities to Somerville to hear Judge Mayfield speak of his candidacy.

Suggests New Plan For Paving of Hill

Credit is given Milton Andrews for the latest and most unique plan for the paving of Echols Hill, Bee Line highway stretch at the south Albany limits which has caused comment all over the state. Mr. Andrews suggests that inasmuch as the hill has all the advantages of the average summer resort, in that sensations akin to the roller coaster and chute types can be felt everytime the hill is negotiated that admission should be charged for both entrances to the hill. Mr. Andrews proposes that as soon as funds are sufficient that they be applied to the paving of the thoroughfare.

THIRTY DIE FROM DRINKING WOOD ALCOHOL SUNDAY

Twenty Soft Drink Peddlers Closed In Dry Drive

SIX ARRESTS BEEN MADE

Canadians Aid In Capture Of Persons Responsible

(Associated Press)

BUFFALO, July 26—Thirty deaths had been recorded today in Buffalo and vicinity from wood alcohol. Eight dealers have been arrested, one on a homicide charge.

Over the weekend the death toll in Buffalo was 13, while an equal number died in Toronto and other Ontario towns and four died in Lockport, N. Y.

Twenty soft drink parlors in Buffalo had been closed today by the police. Karl Maischoss, soft drink dealer was arrested on an open charge after police were informed he had sold liquor to Nellie McCarthy and Charles Lennon, who died after a party at Miss McCarthy's apartment. Two others who attended the party were taken to a hospital, dangerously ill.

Joseph Banos, alleged middleman for James Volker, whom police seek as distributor of the liquor was led on a homicide charge.

Six arrests were made today and others were being sought in a combined drive by American and Canadian officials in an effort to dry up the source of the poison liquor and punish those responsible for its distribution.

Acting chief Regan stated that 90 per cent of the liquor being sold in Buffalo contains poison. Medical examiner Danzer diagnosed most of the cases as "wood alcohol poisoning."

Officials said most of the liquor which caused death and blindness was merely denatured alcohol flavored and colored to resemble whiskey or treated with sugar and juniper juice to resemble gin.

Moody Majority Grown To 3,555

(Associated Press)

DALLAS, Texas, July 26—Attorney General Dan Moody's majority in Saturday's democratic gubernatorial primary suddenly jumped to 3,555 over all opponents when the 11:30 tabulation of returns was announced. On the previous count he had only 454 majority. The figures from 241 counties of 252 count with 59 complete give Davison 104,049, Ferguson 236,569, Moody 349,502, Wilkins 1,337, Zimmerman 2,231, Johnston 1,761.

HUGE AMOUNT LAND MOVED

Occurred Along The Mississippi River Front Sunday

(Associated Press)

MEMPHIS, July 26—Major Donald H. Connelly, chief of the detachment of United States Army engineers stationed here after an inspection today of the grounds about the cave-in which occurred near the Mississippi river front yesterday, predicted that another cave-in likely would occur within a few hours.

A survey today of the cave-in which occurred yesterday showed that approximately 15,000,000 feet already sunken to a depth of about 100 feet carrying with it building and equipment of West Kentucky Coal company and other property valued at \$400,000.

None of the ground went into the river itself. A complete wall of earth was left along the actual water front seemingly protecting the sink.

Aside from the almost complete destruction of the coal yard, trackage of the St. Louis, San Francisco railroad for several blocks was torn and twisted and a large molasses tank belonging to the Happy Feed mills was tumbled into the chasm. The sink was 1,000 feet long and more than 200 feet wide.

Three Occupants Of Fatal Car Rushed To Hospital

ACCIDENT CALLED WORST IN HISTORY OF LIMESTONE CO.

Residents Say Motor Was Traveling At Rapid Speed

DRIVER FAILS TO SEE LOG WAGON

Heavy Wagon Falls Upon Roadster And Its Occupants

By D. L. Rosenau, Jr.

Special to The Daily.

Athens, Ala., July 26—Latest reports concerning the accident which took place about three miles from Athens on the Athens-Florence road about ten o'clock Saturday evening when a Ford roadster containing seven people ran into a large log wagon show that Lassie Elledge, Coxey, Ala., is dead, Russell Elledge, Tuscumbia, and Lena Mae Mihan, Tuscumbia, are feared to be near death, Minnie Smith Tuscumbia, is seriously injured, and Larkin Elledge, Coxey, Ala., Hershel Elledge, Russellville and John Elledge, Tuscumbia are all badly bruised and cut.

Residents of the neighborhood state that the roadster containing the seven young people passed their houses at a rapid speed and that the passengers were laughing and talking, unaware of the fate awaiting them. As they turned a curve and started down a hill a log wagon was ahead of them which evidently the car was unable to avoid. The crash could be heard by people who lived a mile away, the Ford sliding under the wagon almost completely, breaking the wagon bolsters and one wagon wheel.

Teams of horses had to be used to pull the car and its occupants from under the wagon. There was little noise, the injured parties lay still almost as though dead. The auto was practically demolished. By a strange coincidence, however, not a single tire on the car was punctured. The steering wheel had to be torn away to remove the driver who was pinned under it. The passengers were rushed to Athens where they were treated by Doctors J. O. Belue and W. H. Anderson. They were dispatched almost immediately for the Benevolent hospital at Albany, the Elledge girl dying on the way and it being feared several times that the Mihan girl was dead also. The condition of Miss Mihan is reported as extremely critical.

The dead girl was injured internally. She was unconscious from the time of the accident until she died. The Mihan girl suffered a fractured skull. Minnie Smith sustained a broken thigh and perhaps internal injuries. The others were badly cut and bruised but will recover.

It is the worst accident in Limestone annals. The scene was visited by countless autos and visitors all day Sunday.

Bible School at First Presbyterian

A daily vacation Bible school opened today at First Presbyterian church, Decatur, with an unusually large enrollment. Miss Sarah Liston, Mrs. James Godfrey and Rev. James D. GRAYSON, Ky., July 26—Martha Yarhaus, 36, Portsmouth Ohio, was fatally wounded near Olive Hill, Ky., yesterday while riding in an automobile, by constable W. D. Haygood, Olive Hill David Thomas, her fiancée was with the girl. The couple were on their way to visit relatives.

Haywood said the automobile in which they were riding was travelling at a high rate of speed and that when they failed to halt at his command, he fired. The bullet struck Miss Yarhaus, killing her.

NO REPORT MADE ON TROPIC STORM

Miami Halts Boats Fearing Storm Will Strike

(Associated Press)

MIAMI, July 26—A hurricane swept up out of the Caribbean sea sideswiping the lower Florida east coast with a heavy wind traveling at between 40 and 50 miles an hour. No damage has been reported.

All efforts by the tropical radio company stations here to establish communication with Nassau today failed. Outbound vessels remained in port while several other unidentified ships rode at anchor beyond Miami Beach awaiting storm developments before continuing their course or entering the harbor.

WASHINGTON, July 26—The tropical storm evidently passed near Nassau, Bahamas, during the night, the weather bureau said today. The report from Nassau failed to arrive this morning.

The course of the storm is still apparently toward the northwest, the bureau said, and winds of hurricane force prevailed near its center.

Northeast storm—warning are flying from Key West to Titusville, Fla.

MIAMI, Fla., July 26—Weather bureau here this afternoon stated it had received a message from a steamer 17 miles east of Miami stating that the velocity of wind was 80 miles an hour from the north-northeast. The ship's barometer read 29.80.

LISSIE ELLEDGE DIED ENROUTE TO LOCAL HOSPITAL

Miss Lena Mihan Has Not Yet Regained Consciousness

DRIVER RESTS FAIRLY WELL

Others Are Returned To Their Homes After Accident

Miss Mihan had not recovered consciousness until after one o'clock this afternoon and physicians held out little hope for her recovery.

Miss Lena Mae Mihan, Tuscumbia girl, had not regained consciousness at Benevolent hospital this morning, where she had been brought Saturday night after a fearful automobile accident on the Athens-Florence road in which one was killed and six injured, Miss Mihan probably fatally injured.

Miss Mihan, who suffered a fractured skull at the base of the brain has not recovered consciousness since being brought here.

Miss Minnie Smith, Tuscumbia, will probably be returned to her home today. Miss Smith suffered a fractured right leg, and a fractured jaw.

Russell Elledge, who is understood to have been the driver of the car is resting very well at the local hospital, though he suffered a fractured skull, nose and jaw.

Larkin Elledge, Hershel Elledge and John Elledge returned to their homes in Coxey, Russellville and Tuscumbia following the accident, having suffered painful, but not serious injuries.

The injured parties were brought here in McCormick's ambulance of Athens.

Miss Lassie Elledge died enroute here. The body was returned to the home at Coxey and there prepared for burial.

Scores of Twin City people went to the scene of the accident Sunday, upon learning of its occurrence.

The accident is one of the worst in the annals of North Alabama history, physicians being of the opinion that it is miraculous that only one was killed. Miss Elledge died perhaps an hour after the accident, some time having been necessary to remove the injured parties from the wreckage. A team was used to take the log wagon off the car, the car having plunged underneath the heavy vehicle.

Gossip of Staff Correspondents at World Centers of Population

By International News Service
BERLIN.—An International Union of Actors was founded here at the conclusion of the session of the International Actors' Congress after several days' stormy debate on the subject. The new Union includes members of all countries of Soviet Russia. The Russians insisted on the "class-war character" of the Union and wanted stage managers not to be admitted to the League. While their viewpoint was backed up by representatives of Austria, Holland and the Czechoslovakian Republic, the majority of the actors rejected the Soviet idea and passed a resolution that the League should be non-partisan and non-political.

An executive committee was elected for two years and charged with the task of calling another congress within two years and collecting a fund for this purpose. About ten cents will be collected from every member of the League. Thus about 3,000 dollars will be collected.

Two American representatives are on the executive committee.

"Dancing girls need not be pretty, at least not those who go in for classical dancing, but they must be personalities," said Franz Terpis, solo dancer and chief of the Berlin State Opera Choro-graphic school in an interview with a Berlin paper.

"I have seen many women dancers coming and going but I must say that their beauty has not been the essential ingredient of their art. It's personality that counts. They must be able to dance to a simple Major or Minor scale."

Dwelling on the tremendous popularity of dancing in Germany Terpis emphasized that the "selection of the fittest" is sometimes hard. "Hopeful mothers bring their four year old babies to me and are convinced that they will become great dancers. You cannot pass a safe judgment on those youngsters. The critical age is fourteen. The candidates have to improvise dances according to their own intuition. First they are shy but generally they get rid of their reservedness and dance, if the "stuff" is in them at all.

"I want to acquire the finishing touch in boxing, that's why I go to the states. I am not optimistic about getting fights, for I am determined to start from the bottom," said Franz Diener, heavy-weight champion of Germany, who will sail for America accompanied by his manager and trainer, the Turk Sabri Mahir, in an interview with a Berlin paper.

Diener is 24 years old and the youngest among fourteen sons and girls of a humble Thuringian worker. He won his title on points after a terrific fight against Paul Samson-Koerner, a 42 years old veteran boxer, who was considered unbeatable for many years. Even after the recent fight for the championship boxing critics disagreed as to who deserved the title.

There is every indication that Germany after the restoration of pre-war hotel accommodations and travelling facilities has resumed her old place as a popular tourist country.

According to reports from German consulates in the United States the number of visas granted to American citizens has increased by about twenty-five per cent as an average, and as compared to 1925 figures. In several instances the percentage is considerably higher, and Boston holds the record with an increase of about sixty per cent.

Various summer resorts in Germany also report a large increase in the number of American guests over 1925. The most frequented places are Baden-Baden, Bad Nauheim, and Wiesbaden.

As a rule, Americans do not stay at one and the same place for weeks or so, but the majority of American tourists pay just a "flying visit" to each individual European country.

ELEVEN LAWYERS REPRESENT STATE

Kilby Points Out Need for Business Man in United States Senate. Alabama has Eleven Lawyers and No Business Men.

THOMAS E. KILBY

"Ninety per cent of the matters coming before Congress relate to business or economic questions," declared former Governor Thomas E. Kilby, candidate for the United States Senate. "The Congress of the United States is the greatest business body in the world, and its actions directly affect the life, income and cost of living of every man, woman and child in Alabama. Alabama has twelve men in Congress—ten in the House of Representatives and two in the Senate. Eleven of these are lawyers and there is not a business man among the number. Does it not appeal to the people of Alabama as proper that the great agricultural, industrial, commercial and business interests of Alabama should have at least one business man with legislative and executive experience running for the United States Senate."

"Without any disparagement of lawyers, many of whom I number among my warmest friends and closest supporters, I believe the best interests of the state and nation would be served by having at least one business man in congress from Alabama to bring a new viewpoint to bear on the great business and economic problems which come before that body."

"The Muscle Shoals question has been before Congress for six years and apparently is little nearer settlement now than when it started. Six good business men could have settled that problem in six months."

"I promise the people of Alabama the same business methods in the Senate which marked my administration as Governor."

FIRST METHODIST PLANS AN ANNEX

Church Starts Drive Sunday By Taking In Pledges

Owing to the need for additional space in the Sunday school rooms, the First Methodist church, Decatur, Sunday began taking up pledges looking toward the building

of a Sunday school annex. The pledges were taken at the close of the Sunday morning services when a large audience heard Bishop H. M. Dobbs, state Methodist leader.

The Bishop preached an unusually strong and pleasing sermon, making the audience feel happy that they had accepted the opportunity for hearing him.

It is probable that announcement of the building program, construction date, will be announced within a short time, church members preferring to work slowly at the present time in arranging all necessary details.

MALE CHORUS AT WESTMINSTER

Sunday morning services at Westminster Presbyterian church were featured by a special musical program, prepared by Mrs. George Jackson, the faithful organist, who during the very warm evenings of the past few weeks had worked earnestly in an effort to give the church something unusual locally in a musical program. Messrs: Hatfield, Lowery and Howell, tenors; R. T. Sheppard and Shelton, baritones, Boggess, Crane and Solomon, basses were included in the male chorus that occupied the choir loft. Their efforts were inspiring whether in chorus, solo or duet. Mrs. Jackson is to be complimented for having given so pleasing a program.

Sand Castles

By Dorothy Fleck

THEY'RE only playing in the sand, but unconsciously their hands fashion the castle of their dreams, and the task becomes so fascinating that it seems real. And it's going to be real, too. For when lovers begin building sand castles, you may be sure that as they mould the sand into the wee castle, they're planning

their own castle of dreams. And whether it's a bungalow or a mansion, if Love goes into the building of it, and dwells on the hearth, the foundations will be so firmly rooted that it will stand forever. So be sure that Love is the first guest you invite into the dream castle, for then it can never crumble—as does the sand castle one idly fashions on the gleaming beach.

PARIS—Garden party gowns which are in the thoughts of almost every woman during the month of July, were probably never more lovely and gay.

It would almost seem that each dressmaker is trying to outdo the other in bright and cheery designs and colors. This does not necessarily mean "jazzy" effects, for French couturier never forgets his good taste, but on the other hand it does not mean dull ones either.

A delightful frock seen at one of the recent parties was in shot-blue taffeta fitting closely to the waist and spreading in panier effect with scalloped skirt and billowing sleeves caught tightly at the wrists. Another in silver grey voile with a big flowered pattern was worn with a black silk hat and silver fox fur.

lace of the same tint as the trimming and tiny tucks dispose of the fullness at the neck. Shaded mauve and pink roses are caught at the waist to one side.

Stone grey georgette is used for a more elaborate mode which is embroidered all over with beads and silk threads in dragee, green and ruby colorings. A line of green appears in the skirt and a grey and green sash adds an effective touch.

There are some beautiful tones of copper appearing among the fashionable frocks for the garden. One in georgette is in deep copper shade with lines of lace from the pretty yoke to just below the waistline. Lace panels are let into the skirt which has a beautiful shaded copper rose at one side.

For those who like black there are charming models in lace, or chiffon. One in crepe de chine and has touches of white embroidery to trim it. Black and white taffeta is made into a delightful model at Lucien Lelong's and this dressmaker is also showing some lovely white and colored organdie frocks. White organdie is put with pink and mauve with violet.

NINETEEN LOCKJAW CASES REPORTED IN NEW YORK

By International News Service
ALBANY, N. Y.—Nineteen cases of lockjaw have been reported in New York state for the first six months of 1926, the State Health Department announced today.

This lacks only one of being as many as the total number of cases reported during the entire year of 1925.

SPEED LIMIT IS SET FOR BOSTON FIRE ENGINES

By International News Service
BOSTON.—Speed laws were in force here today against fire apparatus.

Hereafter fire department vehicles answering alarms must not exceed 25 miles an hour, and, returning from fire, they may not go more than 15, according to a ruling by Eugene C. Hultman, fire commissioner.

Hultman said he wished to cut down on collisions and other accidents resulting from fire apparatus going through the streets at great speed.

FAMOUS FRENCH RECIPES

PARIS—Let the "Filets of Herring" stand for one or two days in a little olive oil with onions cut into rounds.

Drain and dip into the beaten white of an egg, then roll in fine bread crumbs. Brown in a frying-pan in a little butter. When they are nice and crisp, with draw to a warm place and put into the pan. The onions chopped very finely.

In the meantime prepare a puree of fresh peas. Mix with the onions when they are cooked and turn the puree into a serving dish. Place the herrings over this and sprinkle with fine crumbs. Dot with pieces of butter and place in the oven a few minutes before serving.

Moulton News

MOULTON, Ala., July 26—Special—The Lawrence County board of education met in special session Friday afternoon in the office of the county superintendent to consider selection of a supervisor of elementary schools in the county as a successor to Miss Lydia Tidwell who resigned in the spring after three years of service in the county. On recommendations given by members of the state department of education at Montgomery, the nomination of Miss Mary B. Pickrel was approved. Miss Pickrel has had broad experience in the schools of the state and in West Virginia. For the past five years she has been connected with the Snead Seminary at Boaz.

The local school authorities of Moulton are pleased to have the return of each member of the elementary school for another session. Mrs. Etta Lee Horton, of Courtland as principal, Miss Maggie Barnett of Riverton, third and fourth grades, Mrs. Horton, had one year as an assistant in the school prior to her work as principal, Miss Barnett came to Moulton for the first time last year and Miss Roberts has had charge of the primary work for several years. It is hoped that by the session of 1927-28 a new elementary school building so much needed, will be erected in Moulton, as now planned this will be done by the proceeds of a five mill tax recently voted by the district for that purpose.

Athens News

RANEY WILL UPHOLD AT ATHENS

The jury summoned to sit on the contest of the John Raney will case here this week has returned a verdict upholding the validity of the will. The trial lasted two days, a large number of witnesses being examined by both sides and the verdict coming after a very short period of deliberation.

Mr. Raney died here the past spring, and at the time of his death left a will in which certain specific parts of his property were bequeathed to his various children. Certain ones of the heirs, however, were unwilling that the old home place should go to Miss Eula Raney one of the daughters, as directed by the will, and contested it, using as their main ground alleged undue influence in the making of the will. The jury decided, however, that the facts did not warrant such an inference and upheld the instrument.

Miss Eula Raney, the daughter seeking to uphold the will, was represented by J. G. Rankin of Athens.

MRS. PATTON ELECTED TO EDUCATION BOARD

At the regular meeting of the city council this week, Mrs. R. B. Patton was elected to the city school board to take the place made vacant recently by the resignation of D. L. Rosenau, Sr., Mrs. Patton is well known in civic and educational affairs, and is the second woman to be on the board. The other members are Miss Bessie Sykes, J. G. Rankin, W. J. Howard and Charles Stinnett.

CITY CONTRIBUTES TO PUBLIC LIBRARY

The city council has passed a resolution authorizing a contribution on the part of the city each month to help defray expenses of the public library which has had more or less hard going recently. This will enable the library to make needed repairs and keep abreast of the times so far as new books are concerned. The city has contemplated making this donation since last year, but unfortunately financial conditions at that time did not warrant it.

TO PREACH LAST SERMON HERE

Dr. E. W. Sears will preach his last sermon at the local Christian church here Sunday morning, having resigned recently due to ill health caused by a very serious attack of influenza the past spring. Dr. Sears while here has been a great favorite with his members, his successor has not as yet been named.

REPUBLICAN MASS MEETING

Guy M. Jacobs, chairman of the republican executive committee of Limestone, has issued a call for all republicans of the county to meet at the courthouse, August 10 for the purpose of selecting delegates to the state convention. The local republicans although only a small majority have always met regularly and sent representatives to all state and national meetings.

NEGRO ASSAULTER TO BE TRIED

Lewis Stokes, negro, accused of assaulting Nan Malone, another negro, with intent to kill is scheduled to have his preliminary before J. E. Clem, Judge of the local inferior court, Monday morning. Although the affair took place several weeks ago, no trial has been held as yet, the court waiting until it was seen whether the Moulton negro would live before making the charge. Stokes, it is understood, claims self defense.

VERY frequently I tell you about Sir Arbuthnot Lane of London. He is a famous surgeon, having a world-wide reputation. In the practice of his specialty this great man has done a great deal of good, but I am sure that in his advanced years he has done far more good by his preaching about proper eating than he ever did with the scalpel.

Dr. Lane believes that most of the ills of the human family come from the eating of concentrated and denatured foods. He points out that civilization has directed men along new ways. These paths lead away from natural eating in the direction of restaurants and cafes where the wrong dishes are ordered.

Of course those of us who are interested in right living and right eating are laughed at a good deal because of the advice we volunteer. In spite of this, however, I want to say that you must eat a certain amount of bulky foods if you are going to have good digestion.

In the beginning, men lived off the fields and forests. They ate fruits and nuts. Edible roots and even the bark of trees were included in their diet. As they grew more skillful in such things they caught fish and killed animals for food.

But you see all the things they ate were coarse foods, rough foods, bulky foods. They were not the refined, soft, mushy kinds of foods. They had real substance, material upon which the intestines could act.

I have no objection to the modern foods and even to many of the exotic foods. I do insist, however, that in addition to these or accompanying their use, the bulky foods must be consumed.

The reason we talk about spinach and lettuce and cabbage and celery is because these fibrous vegetables have substance enough to furnish the bulk required for the sake of digestion. Bread made of whole wheat or coarse flour has a peculiar virtue in that it gives substance as well as mineral nourishment.

Please get no wrong impression by what I am saying to you. Crazy folks eat nails and wire and swallow links of chains. Of course the mere doing of these things shows they are crazy, but you would be almost as much lacking in good sense if you were to overdo the matter in the taking of rough foods. All the things you eat should be thoroughly chewed and not sent into the stomach in such form as to produce harm by their mere presence.

The more you know about foods, the more likely you are to select a meal which combines the elements needed for your physical welfare. It is a great mistake to sit down to a meal made up exclusively of hot biscuits, maple syrup, strawberry shortcake and a piece of pie. You must include in your meal protein food such as you get out of meat or cheese or milk.

You must have food containing the minerals needed to give strength to the bones and fingernails and the hair, as well as for the blood and other tissues of the body. Then if you add green vegetables and fruit, particularly if you take a salad of some sort, you are giving your digestive organs the combination of foods which will make for your health and vigor.

FLORIDA REPUBLICANS TRY TO BREAK IN SOLID SOUTH

By International News Service
TALLAHASSEE, Fla.—Active Republicans are trying to drive a wedge into the political surface of Florida—the southernmost tip of the old "solid south."

Party meetings have been held, committees have been formed, and arrangements are being made for a republican meeting in Ocala at which a state-wide program of activity is expected to be worked out and placed under direction of a centralized organization.

Under-surface rumblings have been heard from the party during the last two or three years, when so many northerners have flocked to this state, but only this summer have the growing murmurs been crystallized into definite action along prepared lines.

DIRECTORS MEET

Directors of the Junior Chamber of Commerce will meet this evening at 7 o'clock at the offices of the Albany-Decatur Daily. President Smith urged that all directors be present.

Here It Is!

The Sensation of the Day
In Proprietary Medicine

Only a few years ago it was being made by the originator in his home kitchen, now manufactured in one of the largest laboratories in the United States, and being sold in car load lots from the Lakes to the Gulf at the rate of over a million bottles yearly.

Hundreds have testified that they suffered for years with constipation, indigestion, gas on stomach, coated tongue, no appetite, no vitality, and a general run-down condition, but by the aid of this marvelous cleanser, eliminating the poisonous waste matter from the system through its free action on the bowels, they now own their good health to same and once more enjoy hearty meals without any ill effect and no longer suffer with the most common ailment of the day—constipation.

This medicine is out-selling any other preparation on the market where it is known. More than a million bottles sold during past year under absolute guarantee to give beneficial results—and less than a dozen bottles returned—a record probably never before established by any other medicine. Every family needs this Herbal Extract preparation called Herb Juice, as every family necessarily takes a laxative, and this preparation is said to be nature's most effective tonic laxative and system purifier. Can be given to children same as adults. Mild, pleasant, yet very effective. Get the original and genuine as shown above and we guarantee beneficial results. Now sold by leading druggists and dealers in medicine everywhere.

Pirates-Reds Lose While Cards Cop; Ruth Hits 30th To Win For the Yanks

Both the Pirates and Reds learned yesterday just what it means to lose. The Reds lost to Boston 8-4, while the Pirates were learning the merits of a good pitcher from Jess Petty, re-instated Robin ace. The Cards climbed within two and one-half games of the top with a win over the Giants.

The Cincy game was enlivened considerably by a pair of fist fights. Police rushed upon the field and restored order. Wilson, Brave outfielder was rushed to jail charged with having stuck Inspector Kane during the general melee of the first fight.

The Pirates put up plenty of fuss about their own loss, but they didn't start any free for all battles. Jess Petty outpitched Joe Bush, Traynor being the only Buc who could get bearings on the Robin hurler. Traynor slammed a triple, double and single. Zack Wheat hit a home run off Bush, while Furrer hit a pair of doubles.

The Cards defeated the Giants when Billy Southworth, Giant cast-off, hit a home run in the 11th. The Cards had been forced to tie things in both the ninth and tenth.

The Cubs defeated Philadelphia in the other National game, 5-4.

Over in the American Babe Ruth returned to laurel wreathing when he clouted a homer with one on the sacks. The Yanks won 2-1. It was the Babe's 30th smash for the circuit this year. He is still far behind his 1921 record, the year he piled up 59 clouts of the home run variety.

Cleveland continued winning ways against St. Louis, grabbing an easy 7-4 verdict.

The Tigers swarmed all over the Senators in Washington and won 14-4, moving into fourth place only six points back of the slipping Athletics. Washington has tumbled into sixth place.

Three games in the Southern league failed to produce the unusual. The Vols jumped the Chicks rather heavily, beating them 17-5. Little Rock defeated Chattanooga 5-2 and Mobile stopped Atlanta 8-2. The Pels and Barons were idle for the day.

Eddie Lewis is now leading the Southern league in stolen bases by a wide margin, having swiped 23 bags thus far. He is leading his nearest contender by six swipes. Lewis is likewise clouting at a rapid gait, having been above the 300 class of hitters ever since Chattanooga started talking about releasing him earlier in the year. The former Twin is making a big noise in the Southern for so small an individual.

Just what is going to be the status of the Thursday game down at Malone Park is yet to be learned. It's going to be either Falkville or Merrimac Mills of Huntsville. Either club is going to give the homelings plenty to think about when it comes to running the bases. Huntsville defeated the local representation last year on two oc-

UNITED STATES DEPARTMENT OF AGRICULTURE

Bureau of Agricultural Economics

Auburn, Ala., July 26, 1926

The condition of cotton in Alabama on July 16 is reported at 71 per cent of normal, compared with 78 per cent on June 25 last and with 78 on July 16, 1925. Based on the past relation between condition and normal yield, the present condition indicates a yield of 139 pounds of lint per acre this year, which with 185 pounds last year and 154 pounds in 1924. On the acreage planted and growing on June 25 this year, and allowing for about one per cent abandonment, such a yield would produce the present 1,000,000 bales. The state produced last year 1,357,000 bales and in 1924, 985,000. Whether or not the present indication be finally realized depends on weather conditions, insect damage and other contingencies during the remainder of the season.

A deterioration of 7 points is shown in the crop since June 25. This is due, as reported by 436 farmers and bankers from all counties, to damage done by too frequent rains and by the so-called cotton hopper. Forty-four per cent of those reporting mentioned unsatisfactory fruiting and 35 per cent mentioned the hopper specifically. The plant continued to grow during the period, and is now presenting the best looking weed seen in Alabama in many years. On June 25 the crop looked satisfactory from every point of view, no mention of hoppers nor complaints of rain having been made at that time. Since then the hopper has appeared in all sections of the state, and quite apparently destroyed a large proportion of very young squares. These have, in the nature of the cotton plant, been replaced by other squares, but the net result has been to make the crop late so far as setting fruit is concerned. Also during the interim between reports it rained an average of 5.5 days out of the 21, which kept the plant growing rapidly, and in the nature of things prevented heavy fruiting.

The condition of 78 on June 28 indicated an average yield of 149 pounds so that about 10 pounds per acre have been lost in prospect up to the 16th.

As to what may be expected from weevil damage, it is significant that, notwithstanding the frequent rains during the period, those contributing to this report say that the number of weevils present are only 75 per cent of the number present a year ago. With a full-sized and healthy plant, there is still time to make a splendid yield if the weather and weevil are

favorable; and, on the contrary, there is still time to suffer heavy weevil, since the records disclose the fact that rainy weather in August has been accompanied by the worst effects from weevil activity. The condition of the crop on July 16 and June 25, 1926 and on July 16, 1925, is given below for the various crop-reporting districts of Alabama:

	July 16 1926	June 25 1926	July 16 1925

ILLINOIS JUDGE'S RULE PUTS END TO EASY LIFE OF PROFESSIONAL JURORS

By International News Service
MARION, Ill.—The professional jurymen has been given a body-blow here.

Judge R. R. Fowler in Williamson county circuit court ruled recently that the regular panel of 24 jurors summoned at each term must be filled by men, whose names are drawn from the venire box instead of men picked at random by the sheriff.

It has been the custom in this county when the number of veniremen who appear for jury serv-

ice falls short of the 24 required, for the sheriff to serve a special venire summoning the men easiest available. This has given rise to more or less steady employment for a number of men who hang about the court room.
